

MKB Energy

T5 LED Plug & Play Grow Tubes

Real Savings, Powerful Light

The MKB TS LED tubes are groundbreaking direct replacements for fluorescent T5 horticulture lamps.

These lamps require no re-wiring. Simply plug-in and go!

With 5000K of pure white light with a broad spectrum, these LED T5's have an superior PAR and PPFD output when compared to fluorescent lamps.

Energy savings is substantial. Changing a hot, 54 watt tube to a cool-running 24 watt LED also extends the lifespan of the ballast and fixture!

-66% Energy savings

-More PAR!

-Shatterproof

-Mercury Free

-50,000 Hour Life

-Low Heat

Full-Spectrum White Light

Low Heat

Long Life

**More PAR +
